

FINE CONTROLS (UK) LTD

Fine Controls have been supplying process controls & instrumentation equipment since 1994, & now serves an ever expanding customer base, both in the UK & globally.

We offer a full range of valve & instrumentation products & services, with our product range representing leading technologies & brands:

Flow: Flow Meters & Transmitters, Flow Switches, Flow Control Valves & Batch Control Systems

Temperature: Temperature Probes & Thermowells, Temperature transmitters, Temperature Regulators & Temperature Displays

Level: Level Transmitters & Switches

Pressure: Pressure Gauges & Transmitters, Precision & High Pressure Regulators & I-P Converters, Volume boosters.

Precision Pneumatics: Pressure Regulators, I-P Converters, Volume Boosters, Vacuum Regulators

Valves: Solenoid & Pneumatic Valves, Control Valves & Positioners, Actuated Ball, Globe or Diaphragm Valves & Isolation Valves

Services: Repair, Calibration, Panel Build, System Design & Commissioning

MANUAL QUICK RELEASE

There are occasions where it is desirable that some provision be made to enable the boiler house staff or anyone else to shut down the fire valve from the boiler house or some other point.

BS 799/53 recommends the use of a quick release mechanism.

To meet this requirement, we have produced a Manual Quick Release Mechanism of the wall-fixing type to which the fire valve cable is attached. If the button is firmly pressed or hit, the pin to which the cable is attached is released and tension on the cable is released at the same time. When the emergency is over, the pin can be re-set and the cable tension restored.
